About the Emerging Markets Forum

Background

The Emerging Markets Forum (EMF) is a not-for-profit initiative that brings together high-level government and corporate leaders from around the world to engage in dialogue on the key economic, financial and social issues facing emerging market countries. The Forum is committed to bridging the gaps across countries through knowledge sharing, policy debate and private-sector engagement to facilitate their common goal of sustainable growth and development.

Many countries are implementing strategies that will lead to faster economic growth and social progress through prudent macroeconomic management, economic liberalization, openness to global markets and support for a dynamic domestic private sector. EMF aims to enable leaders from these countries to engage in a candid exchange of views with their peers in a private and intimate setting. The Forum focuses on substantive discussions of common issues and on reaching actionable solutions and conclusions which can then be disseminated and applied by the participants in their respective countries and organizations.

Major themes of recent meetings include: the impact of the global financial crisis on different groups of emerging market economies, trade and investment, international financial flows; private sector participation in infrastructure development and climate change. The Swiss government provided seed funding for its first meeting, and EMF is now funded by various international institutions and private corporations from both developing and developed nations. EMF differs from seemingly similar forums as it:

- Has an agenda driven by the priorities of emerging market countries;
- Is predicated on the belief that sustainable development, job creation and poverty alleviation ultimately depend mainly, although not exclusively, on long-term growth and joint efforts of the private and public sectors;
- Draws together participants with first-hand experience: top political leaders, policy formulators and private sector executives;
- Holds meetings small enough (70–90 participants) to permit candor and intense dialogue and yet large enough to incorporate diverse viewpoints;

- Grounds its deliberations in substantive papers written by field experts with first-hand experience in policy formulation; and
- Focuses on practical actions designed to resolve priority issues.

The permanent Co-Chairs of the Global Forum are Michel Camdessus, former Managing Director of the International Monetary Fund (IMF); Enrique Garcia, Former President and Chief Executive Officer of the Development Bank of Latin America (CAF); JIN Liqun, President and Chairman of the Board of Directors, Asian Infrastructure Investment Bank (AIIB); Takehiko Nakao, President of the Asian Development Bank (ADB), and Hiroshi Watanabe, President of the Institute for International Monetary Affairs

EMF has hosted twenty seven meetings, 11 global and 16 regional, to date. Past Forum gatherings have attracted current heads of governments from a number of nations, including Indonesia, Colombia, Kazakhstan, Vietnam and Côte d'Ivoire, and former heads of state from Bangladesh, Bolivia, Burkina Faso, Canada, Ecuador, Mexico, Mozambique, Pakistan, Philippines, Tanzania and Switzerland.

In addition, economic policy makers, current and former Ministers of Finance, Economy, Industry and Trade as well as Central Bank Governors of some 40 countries in Asia, Europe, Africa and Latin America have participated in the Forum. Top officials of international organizations including the International Monetary Fund (IMF), World Bank, Asian Development Bank (ADB), African Development Bank (AfDB), Development Bank of Latin America (CAF), European Bank for Reconstruction and Development (EBRD), Japan Bank for International Cooperation (JBIC), Japan International Cooperation Agency (JICA), Inter-American Development Bank (IDB), UNDP and UN Economic Commissions for Latin America and Africa have also joined the dialogue. Typically about one-third of the participants are CEOs or Directors of major companies and banks from developed and developing nations. Finally, a select group of heads of independent think-tanks and research institutions, leading journalists and opinion-makers are invited.

For more information on EMF activities, please see our brochure at: <http://www.emergingmarketsforum.org/>.

A Note about Candor, Confidentiality and Communications

We hold this Forum in the hope of generating lively exploration and exchange of ideas on tough issues among peers, concluding with action-oriented outcomes. We realize that achieving this level of candor and openness is impossible without complete confidence in the security and confidentiality of the meeting environment. We want to stress that nothing said in any discussion will be attributed to any individual. We will do our part to facilitate openness and ask you to do the same.

The structure of this Forum is unique. The design is informal, with much of the time allocated for free-flowing debate. Opening speeches and PowerPoint presentations in the Sessions will be kept brief; Authors will be present to respond to but not dominate the conversation; Session Chairs will be brief in their remarks; and the Chairs and Discussants together will give just enough input to stimulate subsequent debate. The guidelines are simple: minimize prepared remarks, observe the Camdessus Code of “Conversation not Monologue,” and voice your thoughts, your concerns and your solutions.

We shall at the same time want to share the conclusions reached and ideas generated at the Forum with larger audiences. As such, select identified media organizations will be invited to attend and cover the Forum, with clear understanding that sessions observe Chatham House rules. Media will seek prior permission if they plan to attribute anyone. Media are welcome to interview any participant (a separate Media Room will be provided) but should seek concurrence if the discussion were to be on record or not.

Keynote speeches will not be subject to Chatham House Rules and may be reported with attribution.

We also intend to publish an account of our proceedings on the EMF website and use select social media platforms to disseminate outcomes of discussions on real-time. To ensure the accuracy of the account, we will make an audio recording of the proceedings. However, the recording will not be used for any other purpose. Content posted on the website will not be attributed to any individual.

Participants' Photo: We will organize a Forum group photograph, which will be distributed to all participants as a memento for personal use. We have also arranged for a photographer to take pictures throughout the Forum. We may use these pictures in future EMF brochures.
