Gross domestic product based on purchasing-power-parity (PPP) valuation of country GDP - Current international dollar - Billions
The Emerging Markets Forum is a not-for-profit initiative that brings together high level government and corporate leaders from around the world for dialogue on the key economic, financial and social issues facing emerging market countries – a dialogue that concludes with consensus and commitment to actionable outcomes.

The Forum is focused on some 50 emerging markets economies in Asia, Europe, Latin America, Middle East and Africa that share prospects of superior economic performance, already have or seek to create a conducive business environment and are of near term interest to private investors, both domestic and international.

The dialogue at the EMF Global and Regional Meetings is based on a Series of papers written by world-renowned authorities exclusively for these meetings.
